New DVD! Therapeutic Use of EponaShoe for Founder

Although most EponaShoes go onto sound performance horses, the shoe is also finding use as a therapeutic shoe. This new DVD documents 20 individual cases in which EponaShoes were used with success on founder cases. The DVD is available from our web-site (or call us at (805) 239-3505), and is intended for owners, farriers, and veterinarians. Along with documenting case studies, there are segments showing 3 different foundered horses being shod with EponaShoes.

EponaShoe in Colorado!

We are pleased to announce that EponaShoes are now available in Colorado at the three outlets of Oleo Acres Farrier Supply. In Berthoud, call (970) 532-3490, in Littleton call (303) 979-0446, and in Elbert call (719) 495-9046.

Farrier Map at www.EponaShoe.com

At our web-site we have started a map which shows farriers using EponaShoe. We're starting in the western USA, and filling out the map as we have time. So, not all states are shown yet, but we are getting there! Owners can check this map to find a farrier near them. If you are a farrier who uses EponaShoes and would like to be included, send us an e-mail with your name, telephone number, and e-mail address. This map is a "Google Map" which should be easy and fun to use. Look for "Find a Farrier" in the upper left hand portion of our pages.

EponaShoe at AAEP in Orlando, FL

We will have a booth at the big equine veterinary conference and exposition (AAEP) in Orlando, Florida. The dates of the trade show are December 2 through 4. We are in booth #312 so if you are coming to AAEP, come see us.

EponaShoe Demonstrations in France

Farrier Stephane Tournier, a skilled EponaShoe user from San Diego, went to France and gave several demos. There was a lot of interest, and we hope soon to have resellers arranged for France, the Benelux countries, and Germany.
